OUR CATHOLIC LIFE

Catholic News Service

How do we know what is affecting the Church in our world? The Catholic News Service is a news agency that provides news and photographs to newspapers and other news agencies around the world. This Catholic news agency was started in 1920. The bishops of the United States decided that it would be a good idea for people to get news about what Catholics were doing throughout the world. The agency lets people know what is going on in the world and in the Church today. The professional journalists and photographers who work for the agency write stories and take pictures that keep people informed about Catholics. The latest news is posted regularly on their Web site at www.catholicnews.com and is often printed in diocesan newspapers.
